* Jonagold, Mutusu, Stayman, and Winesap produce sterile pollen and therefore cannot be used to pollinate other apple varieties

Pollination Notes for Other Fruit Trees:

Asian and European Pears - Plant two different varieties - Keiffer variety is self-fertile

Cherries - **Tart/Sour** = Self-fruitful; **Sweet** = Plant two different varieties; **Nanking** = plant two individuals

Nectarines - Self-fruitful

Apricot - Self-fruitful

Peaches - Self-fruitful

Plums - Methley and Santa Rosa are Self-fruitful

**** Self-fruitful**= does not require cross-pollination, but may bear more fruit if another individual of the same variety is present
